

# BLUE TIE GUYS

## Break Out Sessions

### **Team Building Workshop**/think about the productivity of a group that laughed together, helped each other, and supported each others success, would that strengthen your team?

-Your company needs to work together. The purpose of this fun and exciting workshop is to get you up off your feet and learn hands on to trust and appreciate your co-workers.

-**First** you will do some icebreakers, some fun puzzles, a little moving around, and a lot of hand shaking.

-**Second** the group will do some rotating role reversal exercises, some core trust demonstrations and some group balance skills sharpening.

-**Third** will be a Q&A session leading to a discussion on practical ways to implement the lessons learned into your everyday business life!

“Andrew & Bryan are highly creative and skilled entertainers, and would be a tremendous asset for anyone looking to hire someone who can put a long lasting smile on everyone's face. As former professional circus clowns, they have awesome skills in the circus arts to capture an audience's attention, and it makes you really appreciate the hard work that Andrew & Bryan put into each and every one of their performances.”
